

# PCR Test

Updated October, 2020

**BARBADOS**<sup>®</sup>

# UK | Private PCR Test

## Clinics:

- There are express tests available for the sole purpose of travel, results are usually received within 48 hours.
- Users attend a private clinic at a select number of clinics for a professional to take a sample and to give you results in a timely manner.
- Appointments are subject to availability and users will have to find a clinic themselves offering this service.
- Private PCR Tests are available online for an average cost of: £180 per test.

- **The specimen type from the test taken MUST BE Oropharyngeal (throat) and, Nasopharyngeal (nose).**
- **Home Test Results are NOT accepted in Barbados!**
- **Proof of your in clinic test appointment (3-days before arriving) and negative test results MUST BE presented to be allowed entry into Barbados.**
